May

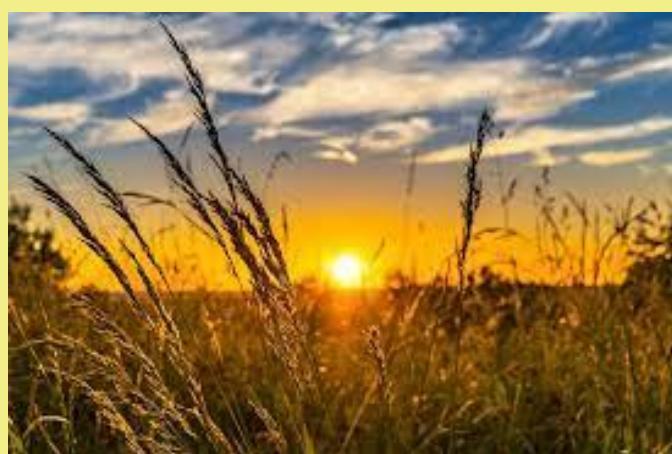

This was the students last month with our auxiliar of conversation Rachel. They were sad but excited to work hard for this month and learn as much English as they could.

This month Rachel worked closely with our four 6th year classes in the English and sciences classes.

As well as that there were some fun activities happening this month.

Europe Day – 9th of May

For Europe Day the students did a work sheet with the auxiliar. They had to colour in the Europe flag. Later they would colour in the flags of different countries and write down the capitals of those countries. They students did great, and they had loads of fun learning all the flags and the capitals.

On the back of the sheet there was a map of Europe. That they had colour in and name some of the countries if they could.

The final question was that the students had to write which language is spoken in the following countries. The students had a great time.

Environment Day

The students of infantil and primary did a work sheet where they discussed different ways of helping the environment. For example, we use the three R's (Reduce, Reuse, Recycle). The students then learnt about the different type of bins and what we use them for. Finally, the students of infantil got to colour in a picture of the world that says, “I respect the environment” and the students of primary did a wordsearch where they learnt new vocabulary. They all really enjoyed it.

Rachel's last day!

All the students were very sad to have to say goodbye to Rachel. All the classes were so amazing and came together to make cards and different things for her to bring home with her to Ireland to remind her of her time in Spain.

Rachel wishes all the teachers and students the best in the future. She hopes that the next coming years will be a lot easier than the year we worked through together.
