

## Easter greetings

Easter is a holiday that falls during spring season. Every nation has its own way of celebrating a particular festivity. Every country has some peculiar traditions and customs. For example it is the tradition of America to conduct special Easter parades, where men and women flaunt their special costumes and colorful bonnets. It is interesting to explore facts about Easter traditions in different countries. Nowadays, Easter is not celebrated just for its religious importance rather also as a moment to do family get-togethers and show the cultural importance of this festivity. People from all around the world come to watch this celebration and the gigantic parades happening within the city premises of Spain. The festivity also marks the beginning of spring where the children find the easter eggs, which the parents hide in the garden. Many people decorate and eat the chocolate eggs too.

## Etwinning letters

Our school in order to celebrate this week, has received e-twinning letters from Bristol wishing our students a happy Easter. The e-twinning project as always is to facilitate the exchange of thoughts and ideas from English learners to Spanish learners and vice versa.

## Easter egg baskets

Children from 3<sup>rd</sup> and 4<sup>th</sup> classes also participated in making an Easter basket and thus learning more about the beautiful culture.

## Other activities

There were many activities done in every class. Some of them included making easter eggs, filling the blanks to increase the vocabulary etc.

## Reflection for the International day of the book

With Liberty, books, flowers and the moon, who can't be happy?

-Oscar Wilde, Ireland

¿Con libertad, libros, flores y la luna, quien no puede ser feliz?

-Oscar Wilde, Ireland

## International Book's day

The special day was celebrated by teaching children about different writers of the world. The activity included children marking the famous books by some of the famous writers in the world. We included the following countries – Spain, United Kingdom, India, Ireland and Spain.

The students learnt new information about different countries and different writers and how they became famous. It was a very joyful and helpful activity. At the end we also gave students some books recommendations by the writers we learnt during the session.

**Gloria Fuertes de Jaén**

**Thank you**
