

Europe Day

May 9th

Today, May 9th, we celebrated Europe Day. Our auxiliar Sydney prepared different activities for students to celebrate Europe Day. She gave a presentation about Europe, and played games with students identifying the countries of Europe and of the EU. They learned how to pronounce the countries in English and Spanish, and also learned how to say hello in many European languages, along with a fun word search to help them remember. They also had a map of Europe to fill out themselves. The students enjoyed learning about the continent they live in, and so did we!

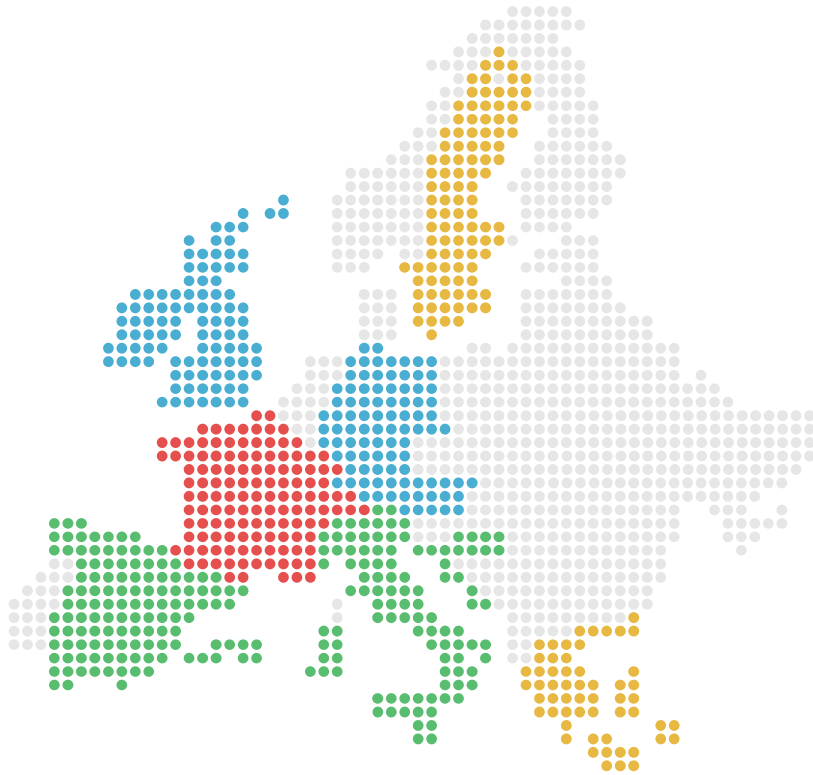

Let us accept that the beauty of this world lies in our different cultures.
